SUMMARY

Senior ML Engineer with 7 years at Google Brain and Spotify.

Expert in PyTorch, LLM fine-tuning, RAG pipelines, vector databases.

Led 3-person team building recommendation system for 100M users.

EXPERIENCE

Google Brain - Senior ML Engineer (2020-2025) 5 years

- Built LLM fine-tuning pipelines using PyTorch and DeepSpeed
- Deployed RAG systems using Pinecone and LangChain
- Managed Kubernetes clusters on AWS SageMaker

Spotify - ML Engineer (2018-2020) 2 years

- Built music recommendation models
- Deployed Docker containers on GCP Vertex AI

EDUCATION

PhD Computer Science - Stanford University (2018)

SKILLS

Python, PyTorch, TensorFlow, LLMOps, RAG, Pinecone,
Docker, Kubernetes, AWS SageMaker, GCP Vertex AI, MLflow
